Dear Sir:

Responsive to the Notification to Comply with Requirements for Patent Applications Containing Nucleotide and/or Amino Acid Sequence Disclosures mailed November 30, 2006 in the above-identified application, Applicants maintain that the subject application does not contain nucleotide and/or amino acid sequence disclosure and therefore submit that no requirement exists for compliance with 37 C.F.R. §1.821-1.825.

If Applicants are in error in this assertion, notification of that error with specific reference to the alleged nucleotide and/or amino acid sequence disclosure would be greatly appreciated.

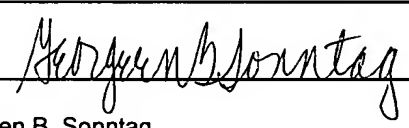

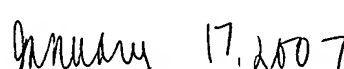

Respectfully submitted,
